WHIG NOMINATIONS.

FOR PRESIDENT,

ZACHARY TAYLOR.

FOR VICE PRESIDENT,

MILLARD FILLMORE.

"For my part, in the dark and troubled night that is upon us, I see no star above the horizon promising light to guide us, but the intelligent, patriotic, united Whig Party of the United States."

DANIEL WEBSTER.

"If Gen. TAYLOR is elected he will do more to curb the Spirit of Conquest, and check the Spread of Slavery, than any other man the Whigs can elect." JOHN Q. ADAMS.

Great Whig Mass Meeting at Atalanta, Georgia.

The great demonstration of the Whigs at Atalanta, on the 14th, is said to have been one of the most interesting and enthusiastic festivals that has occurred in Georgia, for years. The friends of "old Zack" were there from every part of the State, and not a few from the adjoining States,—all evincing their devotion to the institutions of the country, and manifesting a desire to reclaim the administration of the government.

The Convention was organized, the Hon. A. J. Miller, of Augusta, officiating as President. Addresses were made in an able, dignified and powerful manner, by Ex Gov Crawford, Hon. W. C. Dawson, Hon. Robert Toombs, and the Hon. Jno. M. Berrien. The Augusta Chronicle says

When Judge Berrien resumed his seat, some one called for Stephens, and immediately, like electricity, his name seemed to thrill the immense mass from centre to circumferences, and all crowded nearer and nearer to the stand with a shout that would have made a Western audience stand aside in profound admiration. When his slender, emaciated form was seen slowly rising from his seat to approach the front of the stand, what seemed the wildest enthusiasm before, became tame, tame approbation. When the shout had died away, he announced in a clear, shrill tone, which those only who have heard him can appreciate, that he arose not to make a speech, (for he was not able) but simply to acknowledge the distinguished and cordial manner in which his presence had been greeted by his brother Whigs.

He would, however, relate an anecdote. It was of the soldier—a man well advanced in life, one of the renowned Doniphan's regiment—who returned to New Orleans after an arduous service in Mexico, almost naked, destitute of the means to supply his immediate wants or to pay his passage back to his family and friends. In this forlorn and destitute condition a generous citizen of New Orleans took him to his store, shielded his nakedness from the public gaze and gave him the means of returning to his home. When the grateful soldier was about to take his leave, his benefactor asked him if he could do anything more for him.

The soldier replied "no," and took leave.—After going some distance he suddenly stopped, hesitated, and turning round, retraced his steps to the store. When he entered he met the inquiring gaze of his benefactor and observed—"I told you there was nothing more you could do for me. I forgot, there is one thing you can do."

"What is that?" inquired the merchant, as he cordially grasped the hand of the war worn veteran.

"You can vote for 'Old Zack'—all I ask of you is, not to forget to vote for Old Zack."—And with a heart overflowing with gratitude, he grasped the hand of his benefactor and bade him adieu.

Now, and Mr Stephens, "all I have to say to you is don't forget to vote for Old Zack." He then resumed his seat, amid such a shout as gave the highest assurance that the injunction should not be forgotten.

Subsequent addresses were made by Mr Morely, and Warren Aiker, Esq.

In the evening, speeches were made by Mr. Cooper, of Ala., Mr Bottom, and others. A sumptuous barbecue was prepared for the occasion by the citizens of Atalanta and De Kalb, and each seemed to vie with the other in courtesies to the vast multitude of guests.

☞ The special promise of Martin Van Buren, made for value received is now held up by his new party as of more consequence than a life-devotion to principle in other men. Heretofore such promises have been deemed of little value but times have changed now.

It is one of the curiosities of the times that the present supporters of Mr Van Buren for the Presidency, begin, by shutting the door upon all his past history, and find it necessary to make a bill of excommunication against all Mr Van Buren has done, up to a few months past, and declare that inasmuch as it is too painful to contemplate, and their own conduct is so ridiculous when brought side by side with Martin a life, that they must and will forge all about it.

☞ The skies are bright and brightening about us. The prospect of the success of the Whigs in the coming Presidential Election is every way encouraging, and can only be crimmed by the failure of that union and energy which are always essential to success.

☞ Hon Edward Dickinson of Amherst Mass has written a scorching letter to the Editor of the Northampton Courier for giving up every principle which he has heretofore held as indispensable to the prosperity of the country, saying, in order to secure his new allies of his fidelity to the one.

☞ Horace Piper has been re-elected a member of this board by the School Committees of York County.

Penobscot County Cattle Show.

The annual Cattle Show for this County will be held at Levant Village to-morrow. It is expected that there will be a large show of cattle and productions of the farms, showing in what departments the farmers have been most successful the present season. There will probably be a good display of manufactured articles.

We trust that large numbers of our people will find it convenient to attend and thus give the farming interest encouragement in their enterprises.

Those who wish to purchase the finest Butter, Cheese &c. will find this a good opportunity, as the quantity which will be offered for exhibition will be large, and the quality judging by former years will be highly satisfactory.

Arrangements have been made for accommodating a large company at Levant and those who fail to be there will undoubtedly miss witnessing one of the best shows ever offered in the county, and fail to enjoy a very pleasant social occasion, and of listening to able addresses.

A Strange Decision.

Judge Bullock, of Kentucky, in the case of Peter Roberts, a free man of color, who was arrested for the violation of the law against free negroes remaining in the State more than thirty days, has decided that free negroes are not citizens of any State of the Union, in the sense that the term citizen, is used in the constitution of the United States. He holds that a negro is only a sojourner in the United States, and has no guarantees under the Constitution, that he is not a party to the social compact, either of the State Governments or of the Government of the United States, that any State might drive the free negroes from their midst,—that they are aliens and strangers in a strange land.

This sounds strangely. And yet it is upon such construction of the Constitution that slave holders rely for sustaining all their laws relating to free negroes. The subject is fruitful of sober thought.

Over Teaching in Public Schools.

A writer in the Medical and Surgical Journal complains that the children in all the public schools in Boston are over worked, that not only is too great an amount of labor required of them but the studies are too complex and too protracted. Children are hurried sent to school at too early an age, and are kept confined too long each day. Mr George Combe, the Scotch philosopher, used to say the whole course of female education here was radically bad. Girlhood, in Boston instead of being an epoch of freedom, is made up of an uninterrupted series of lessons, either from books or the piano. Misses and young ladies, therefore, are pale, feeble, slender, sickly creatures, positively cheated out of the birth right of good health, the choicest of all temporal blessings. They are unfitted, by a perverse plan of education, for the demands of a variable climate and the incidents and circumstances of the social relations. They are all mind without a body to sustain it. The sweeping morality of the fairest flowers in this unnaturally cultivated garden of intellect, throughout New England, is due to this mistaken and unfortunate plan of education.

☞ The Water cure Journal for September has been received. This work is of great value to all who wish to become acquainted with this system of curing diseases. It is suggestive to all persons, and contains much wealth of information on the means of preserving health. The price is one dollar a year, and Messrs Fowler & Wells of New York, are publishers.

☞ There is to be a great National convention of fruit growers in the city of New York on the tenth day of October next. The object is to compare fruits and settle all doubtful points as to their merits—to fix upon the names by which the fruits shall be known throughout the country and generally to elicit and disseminate pomological information.

☞ A little girl, Miss Olive Miner, about 12 years old, a compositor in the Lodi Democrat office, will set 6000 ems per day, distribute her own matter, and keep her case in perfect order. Miss Olive has been in the business about three months.

The following is given as a list of the emoluments of Mr Clifford Minister to Mexico for the year 1848—Salary as Attorney General, $6000, outfit as Commissioner, $9000, outfit as Commissioner, $4500, outfit as Minister Resident, $9000; salary as Minister Resident, $9000, total, $46,500. He is in luck surely.

MR. VINTON,

This true Whig and able Statesman has been unanimously nominated for re election to Congress, and he repeatly addressed a large Mass Meeting of Whigs at Athens, Ohio, in a speech great power, worthy of himself and the country.

☞ The next State Elections which occur, are those of Florida and Georgia, on Monday, the 2d of October. Then follow Maryland on the 4th of October; South Carolina, October 9, and Ohio and Pennsylvania on the 10th of the same month. The other States vote in November.

☞ Capt Upton, of the Mermaid, at Salem, from Rio Grande, states that the pilot boat, belonging to the latter port, capsized at the bar, on the evening of July 19th, in a heavy SE. gale, and was lost with all her crew of nine persons, including the best pilots.

☞ Alpaca Umbrellas are advertised in the London papers. They look well, wear longer than silk, and cost half the price. Why not make them here?

☞ The editor of the New York Tribune thus gives his reasons for not supporting Martin Van Buren for President:

"Simply because we believe we should thereby be promoting the triumph of Cass, and with him that of the deadliest and most formidable enemies of Freedom. Let it be proclaimed tomorrow that we and those who agree with us in sentiment and in feeling on this subject had taken ground for Van Buren, and who would most jeer, once at it? Who would catch up and speed the tidings from river to river and village to village? It would be the Postmasters, the bondwards, the minions of Polk and the servitors of the Bank apparent—the men who hope to crush the Free Soil movement and fatten through coming years of Democratic Slavery accordingly on the spoils of their dishonor and prostrate adversaries. We shall not play their game for them."

To those who take no interest in Politics.

In a letter written in 1838, Lamartine thus beautifully and religiously explains his motives for entering political life:

"When the Divine Judge shall summon us to appear before our conscience at the end of our brief journey here below, out modesty, our weakness, will not be an excuse for our inaction. It will be of no avail to reply, we were nothing, we could do nothing, we were but as a grain of sand. He will say to us, I placed before you, in your day, the two scales of a beam, by which the destiny of the human race was weighed, in the one was good, and in the other evil. You were but a grain of sand, no doubt, but who told you that the grain of sand would not have caused the balance to incline on my side? You have intelligence to see, a conscience to decide, and you should have placed this grain of sand in one or the other. You did neither. You let the wine drift it away, it has not been of any use to you or your brethren."

Gen Taylor a Peace Man.

In a letter to Hon Truman Smith, Gen Taylor uses the following language:

"I need hardly reply to your concluding inquiry that I am a peace man, and that I deem a state of peace to be absolutely necessary to the proper and healthy action of our republican institutions. On this important question I freely confess myself to be the unqualified advocate of the principles so often laid down by the Father of his Country, and so urgently recommended by him in his farewell address to the American people. Indeed, I think I may safely say that no man can put more implicit faith than I do in the wisdom of his advice when he urged upon us the propriety of always standing upon our own soil."

☞ Gen Cass gets the following first rate notice from the Michigan Campaign paper:

"Gen Cass erected and owned the first distillery that ever existed in Michigan. He planted the seed which took root at an early day, and has spread with its horrid and fatal effects throughout the State of Michigan and the entire West marking its bloody path with murder and misery wherever it goes. We also notice, about twice a year, a lot of kegs, barrels and and liquor casks, champagne baskets, &c. land upon our docks, marked 'Lewis Cass, Detroit.' They contain imported liquors, and of the choicest kinds. The last arrival that we noticed was about three weeks since."

Lewis is loudly cracked up, by the Cass papers for his very temperate habits and pure cold water principles.

A considerable lot of Uncle Sam's provisions were sold at auction yesterday, which were nearly as good as new. But the prices they sold at were perfectly ruinous. Crackers which cost six or eight cents per pound, were sold at one, and Uncle Sam's Mess Pork sold at $4 87, while every body else is held at $9.—Louisville Courier, of the 12th.

CINCINNATI, Sept 22.

The Memphis steamer Concordia exploded on Monday last, near Pinquemine. Some 10 or 15 persons were instantly killed, and several more were among the missing. No cabin passengers were hurt.

The Editor of the Vicksburg Sentinel was killed in the street, during a political quarrel.

FACTS FOR THE PEOPLE.

Every person who will examine the course of General Cass in the Senate of the United States and see how fully he is identified with the worst parts of Mr Polk's administration and will see how unqualifiedly he has pledged himself to the Baltimore platform, composed of the most ultra and destructive measures of the Locofoco party, must be satisfied of the many insuperable objections that exist to his being entrusted with the administration of the Government. They are the identical measures that have exposed upon the country a large national debt, that have doubled the expenses of Government, that have absorbed all the capital of the country to pay the expenses of the war with Mexico, that have broken down the manufactories, that have destroyed the demand for labor, that have reduced the price of all the products of the soil to ruinous degree, that have enhanced the interest of money from the legal rate to one and a half and two per cent a month, and which have brought up the practical difficulties that are threatening the harmony and safety of the whole Union.

We ask the people if these things are not true? If they do not feel them and see them? If they are not bearing upon their business and interests? If they have a doubt that they have their origin in the improvident and corrupt administration of the Government? If they are satisfied that they have been produced by their causes, and no honest mind can gainsay it, is General Cass the man to be trusted with power?

Beyond all this there, is a grave and fatal moral objection to him. The public documents of the Government prove that he has received from eighty to one hundred thousand dollars from the Treasury for extra pay! And that he has obtained it under circumstances if at black as his character, and render him unfit for any public trust. The records of the public offices prove these starling facts:

Shall such a man be the successor of Washington, whose noble career, profound purity, great patriotism, and just administration, constitute a model that deserves to be imitated, though it may not be approached, and who never put a dollar in his pocket but what he had *actually* expended for the public?

Is the machinery of party and the schemes of demagogues sufficient to palm this man upon the country as Chief Magistrate of an industrious, moral, and patriotic people? It cannot be. It would be an endorsement that honor forbids and shame repudiates.—*Bulletin*.

Young man—thou who art driving thy team afield or tearing up the prairie with thy glorious plow, or who art wiping the sweat-pearls from thy laborgemmed brow, in thou hendest over thy anvil—know ye that not that thou art a king! Why, man, thou wearest no purple robe, 'tis true, nor golden crown, thou bearest no bloody sword, nor sway est thou a golden sceptre—but what of that? thou art still a monarch, whose throne is glorious, and from whose heritage there can be neither dethronement or abdication. "I am only king *Some*." Repent and realize this exaltation of sovereignty, and then art thou truly a king.

"King of thyself,"—youth with warm impulses and high resolves. Know ye this then, that he who brings a virtuous soul, a generous heart, and cultivated mind, and offers them on the altar of his country, adds the most precious kingdom that man can rule over, to the imperial sovereignty of humanity. He who crowns his brow with knowledge, and wraps around his bosom the imperial robe of honesty, adds more to the real dignity of mankind, and the glory of the world, than all the hackneyed satraps have done since the days of Nimrod.

his soul with the heaven born principles of truth, and justice and love, does more to dethrone the tyranny and tyrannies of systems, than all the blades have done, that have flashed in indignant and desperaing hands since the days of Tiber as Gracchus.

True Modesty.

The reply of Gen Taylor to the chairman of the Committee for presenting the medal ordered by the State of Louisiana, is full of dignified modesty, and as beautiful as anything in the English language.

"It is true," said he, "my services were high and gallant deeds done on the heights of Buena Vista, and noble and precious blood drenched the sacred earth and stained for many a long step its craggy borders, but, gentlemen, of the glory won there I have never claimed more than the soldier's share. The honor to lead in the fight was a high one, and that I faltered not in this duty, in the watchful and responsible place, was enough to satisfy any ambition. Duty was the star of my attraction, and to do it I would bring all all times all my strength to present to the opposing barrier. In performing this duty a small portion of glory has fallen on the army under my command; there let it rest, not on me. Other men, with equal heart and purpose could have done as well as I. My comrades in many battles share my honors, I rejoice to share them, and finding the glory they, like myself, have won, I will now march in line to the emblem, and the rank and file."

THE CROPS.

We learn from different sections of the Province, that the crops this season, with the exception of the potatoes, will turn out very abundant. In some sections the potatoes have been nearly destroyed, while in others they have escaped almost uninjured, and upon the whole it is expected that there will be a about half a crop.

The *Reporter* says, that there is more corn growing along the line of the river St John at the present period, than ever was produced before in a single season; it is also nearly ripe, and having a fine warm season without sustaining any injury from early frosts, the yield will be most abundant.

LEND A HAND.

Heed the words, thou man of wealth!
Bring back the fading hue of health
To the poor man's sunken cheek,
Thou art strong, and he is weak.
He hath neither gold nor land,
Help to raise him,—"Lend a hand!"
Heed the words, thou poor man!—thou
Who labest by thy sweating brow,
If a sinking brother need
Thy assistance give him heed,
Thou mayst better understand
What his woes are,—"Lend a hand!"
Heed the words, O thou, in whom
The sober virtues live in bloom,
If an erring sister claim
And and pity in her shame,
Spurn her not but take thy stand
On higher ground, and "Lend a hand!"

LABOR.

BY EDWARD G. ABBOTT.

Labor, labor—honest labor—
Labor keeps me well and strong,
Labor gives me food and raiment,
Labor, too, inspires my song.

Labor keeps me ever merry—
Cheerful labor is but play
Labor wrestles with my sorrow,
Labor drives tears away.

Labor makes me greet the morning
In the glorious hour of dawn,
And I see the hills and valleys
Put their golden garments on.

Labor brings an eve of solace,
When my hands their toil forego,
And across my heart in silence
Cherished streams of memory flow.

Labor contains night with gladness,
Giveth rest and happy dreams,
And the sleep that follows labor
With a mystic pleasure teems.

Labor ever freely giveth
Lustrous vigor to the mind,
Shedding over it sunlight holy,
New ideas lidsily find.

Labor brings me all I need—
While I work I need not borrow—
Hands are toiling for to day,
Mind is working for to-morrow.

Labor's tools make sweetest music,
As their busy echoes ring,
Loom, and wheel, and anvil ever
Have a merry song to sing.

Labor—Labor! cries Nature,
"Labor" sing the wheels of Time,
And in their own mystic language
Earth and sky and ocean chime.

Labor—labor—ne er be idle,
Labor while ye can!
To the Iron Age of Labor,
Laboriously makes the man!

THE BEST TRUSS IN USE is DR. J. W. FIELDS' Patent Compress Spiral Truss and Abdominal Supporter.

NEW YORK GRAVEL INFIRMARY, 70 Nassau St., New York, Sept 21, 1842.

I have examined Mr J W Fields's newly invented Patent Spiral Truss, and concur with Doctors Valentine Mott, Stevens, and Parker, in their opinions of its principle and structure. Having an inguinal rupture myself, and used various kinds of Trusses for the last ten years, I concluded to try one of these, and finding the adaptation of its spiral pressure and the setting of the pad in the cup to cure the rupture, I have no hesitation in recommending it, in preference to any I have seen.

SAM'L H. LEE, M. C. M. S.

To Mr. J. W. Fields.—Sir,—I comply with pleasure with your request for my opinion of your Abdominal Supporter for *Prolapsus Uteri*. I have recommended it in many cases, and have heard much satisfaction expressed with its use. It is high, keeps its place very well, gives the support required, and is not so exquisite as to prevent its use by those whose means are small, and who no longer suffer from Prolapsus. I give to it with great pleasure my recommendation.

WALTER CHANNING

Boston, April 26, 1848.

I concur in the foregoing opinions of Dr Channing in regard to Mr J. W. Fields's Abdominal Supporter.

Broadway School.

THIS institution recently under the care of Mr WHITHILL, is now duly opened under the supervision of Mr G. C. W. EASTMAN, formerly Principal of the Litchfield Institute, Litchfield, Conn. He receives pupils of both sexes and pledges his best efforts to render the school worthy of the popular estimation it maintained under his predecessor.

The course of instruction embraces all the branches usually taught in select schools and the classical studies preparatory to admission to any of our Colleges.

For terms of admission application may be made to the Institution or to Mr GEO R SMITH.

Butter Store!
Butter reduced in Price.
HAVING made arrangements with some of our best Dairies, in this county, from which I shall receive about Five Hundred Pounds choice Table Butter daily, every morning. I shall then be enabled, and can and will sell 6 to 10 per cent cheaper, of the same quality, than can be bought in the "Auction Market," where every body is bidding upon each other. And I will send to any part of the city over "One Dollar's" purchase, if within half mile of the Post Office, free of charge.
TERMS—*Cash*, and nothing else. Grateful for past favors, I hope, by the above principle, to keep pretty busy this season.
N. B.—FRESH EGGS, every morning rec'd.
☞ Open every day from half past 5 A. M. to 8 o'clock evening, Sunday's excepted.

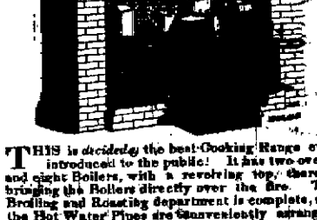
STANLEY'S NEW ROTARY RANGE,
—FOR—
WOOD OR COAL.



THIS is *decidedly* the best Cooking Range ever introduced to the public! It has two ovens, and eight Boilers, with a revolving top, thereby bringing the Boilers directly over the fire. The Broiling and Roasting department is complete, and the Hot Water Pipes are conveniently arranged. Those in want of the *best articles* for cooking quick and economically, are invited to call and examine the above Range before purchasing.
—We have also—
the largest variety of Cooking, Parlor, Air-tight, Franklin, Box and Cylinder Stoves in the market, any of which will be sold as low as at any other establishment in the city.

USE BY FIRMAN'S
A VERY SUPERIOR ARTICLE for Chapped complexions, &c., &c.
FIRMAN & BAKER, 8 West Market Square.

MRS. E. KIDDER'S DYSENTERY CORDIAL,
—AND—
Immediate & Perfect Cure
—FOR—
CHOLERA MORBUS, DYSENTERY, DIARRHŒE, SUMMER COMPLAINTS OF CHILDREN, SEA SICKNESS, GENERAL DEBILITY, etc., etc.
WHERE this all powerful antidote is at hand, Cholera Dysentery and Chronic Diarrhœa are no longer to be seriously feared, or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours, if taken at the commencement.
It has been before the public for more than sixteen years, and was the first article made known to the public as an immediate and perfect remedy for these complaints. It has been thoroughly tested in every country and every climate, and its effect has every where proved the same—SURE TO CURE, even where the disease has advanced to the last stage. The public may rest assured that it contains neither opium or mineral substances, or any thing that is in the least injurious to the constitution.
Choera and Common Cholera Morbus.
This Cordial immediately checks the vomiting, relieves the pains, stops the Diarrhœa, and restores the bowels to superfectly regular and healthy state, however severe the attack may be, or however low the patient may have become it invariably restores.
Severest cases of Dysentery,
are immediately counteracted, the pains are alayed, the bowels healed and not unfrequently the bowel become perfectly regulated and restored in the short space of ten or twelve hours.
Chronic Diarrhœa,
either in children or adults, of months or years continuance, are most readily cured with this Cordial, notwithstanding they may be reduced to a mere skeleton; it immediately strengthens, and shortly restores them to perfect health.
Cholera Infantum.
It has saved the lives of many thousand children when reduced to death's door by this complaint, it gives them immediate relief, and they very soon recover.
Sea Sickness.
It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting, produced from any cause whatever.
Children that are Teething,
if inclined to Diarrhœa, should always be provided with this medicine, as it will keep the bowels regulated, and keep off the Canker. It is wholesome, safe and pleasant to the taste; and children are fond of it, and will take it without trouble or dislike.
For General Debility and Dyspepsia.
It is a most excellent restorative, giving a healthy tone to both the stomach and bowels, and prevents food from pressing or disturbing the stomach.
☞ ***CAUTION.***
Beware of those impositions which are daily palmed off upon the public, bearing the name of my article, which is CHOLERA MORBUS, DYSENTERY AND DIARRHŒA CORDIAL, which name impostors have borrowed. Also, they have copied my advertisements, and prefatory addresses. Don't let they have done this for the purpose of palming off their worthless articles at the expense and separation of this original and most popular medicine that ever came before the public.
Be sure that you obtain MRS. E. KIDDER'S Cholera Morbus, Dysentery and Diarrhœa Cordial, and you will get the only true and original article, which has ever been held in the highest estimation by the public throughout the whole country.
It is put up in a bottle holding nearly a quart, intended for family use, and sold at One Dollar a bottle.
Sold by MRS. E. KIDDER, No. 20 COURT STREET, BOSTON, who is the proprietor and sole proprietor. Druggists and Apothecaries supplied at formerly, in large or small quantities.

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD!

This Extract is put up in Quart Bottles—is six times cheaper, pleasanter, and warranted superior to any sold

It cures without vomiting purging sickening or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person, but it *creates new pure and rich blood* a power possessed by no other medicine And in this lies the grand secret of its wonderful success—It has performed within the last five years more than 100,000 cures of severe cases of disease at least 15,000 were considered incurable; It has saved the lives of more than 5 000 children during the two past seasons

10,000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of excess or indiscretion contracted in youth or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system, in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis Consumption, Liver Complaint, Colds, Catarrah Coughs, Asthma Spitting of Blood Sore throat in the Chest Hectic Flush, Night Sweats Difficult or profuse expectoration Pain in the Side &c., have been and can be cured

SPITTING BLOOD

New York April 28 1849

DR TOWNSEND—I truly believe that your Sarsaparilla has been the means through Providence of saving my life I have for several years had a bad cough it became worse and worse At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced and did not expect to live—I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You can well imagine that I am thankful for these results

Yours obedient servant,

WM. RUSSELL, 65 Catherine st.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary influence

James Cummings, Esq one of the assistants in the Lunatic Asylum, Blackwell Island, states gentleman spoken of in the following letter

Blackwell's Island, Sept 14 1849

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not out sleep or walk I had the almost distressing pains and my limbs were totally swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS.

FITS! FITS! FITS!

Dr Townsend and having tested his Sarsaparilla in cases of Fits of course never recommended it but I was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13 1847

DR TOWNSEND—Dear Sir I have a little girl seven years of age who has been severely afflicted with Fits we tried almost every thing for her but without success at last although we could find no recommendation in any of the cultus for cases like hers, we thought as she was in very delicate health, we would give her a one of your Sarsaparilla and are very glad we did, for it not only restored her strength but she has had no return of the Fits to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully

JOHN BUTLER Jr

FEMALE MEDICINE.

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption Barrenness, Prolapsus Uteri or Falling of the Womb Costiveness, Pain Tenderness or Weakness, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity illness or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and have gone from taking it, at once become the picture of health Energy under its influence It immediately counteracts the sequelæ of the female frame which is the great cause of Barrenness—It will not be expected of us in cases of so delicate a nature to enter into a statement of certain parts but we can assure the ladies that hundreds of cases have been reported to us Thousands of cases where females have been without children after using a few bottles of this invaluable medicine, have been blessed with the healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching the critical period *The Tree of Life* should neglect to take it as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at that time of life This period *may be delayed for several years by using the medicine* Not is it less valuable for those who are approaching women hood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It renews the whole system renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—as Costiveness, Cramps, Swelling of the Feet, Dependency Heartburn, Vomiting, Pains in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is it is a ways safe and the most delicate use it most successfully very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face very soon spoil it of its beauty They close the pores of the skin and check the circulation, which when natural is not thwarted by diseases or powder, or the skin assumed by the alkalies used in so many cosmetics its own production as the "human face divine," as well as the garden of richest delicately tinted and variegated flowers A free active and healthy circulation of the fluids of the system arising of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe This beauty is the offspring of nature—not of powder or soap If there is not a free and healthy circulation, there is no beauty If the lady is fair as a lily or brown as berry, if she paints and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she is brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise, or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain a clear skin, buoyant spirits, sparkling eyes, and beautiful complexion, they should use Dr Townsend's Sarsaparilla. Thousands who have tried it are more than satisfied, are delighted Ladies of every station record our offices daily.

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females, &c., &c.*, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, also—the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended them, although apparently they did not. A number of these Mixtures, Pills, &c., are kept for sale to females, as they aggravate disease, and undermine the constitution.

SUBSTITUTE CURES.

This Certificate conclusively proves that this Sarsaparilla has perfect cures in cases of the most obstinate disease of the blood. These persons cured in one house in unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores have taken only four bottles it took them away, for which I feel myself under great obligation Yours respectfully

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving testimony from physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla at the market H P PULING, M D, J WILSON M D, E B BRIGGS, M D, F E ELMENDORF M D

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided

CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY FOR *COLDS, COUGHS, ASTHMA and CONSUMPTION*

BUCHAN'S HUNGARIAN BALSAM the Great English Remedy for Pectoral and Pulmonary diseases stands unrivalled and unsurpassed is the most elegant, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

Three years time of trial in the United States during which time it has been distributed from Maine to Florida, has only served to establish its pre eminence in all parts of the country as the great and only RELIABLE remedy in the worst cases of Pulmonary disease, and the best and most agreeable cough medicine, all the slight forms of colds, cough and inflammations that can permit to be used

INCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY

DR, BUCHAN—Dear sir The Hungarian Balsam is beyond all question a most perfect and admirable preparation for the diseases of the lungs I have used it in my family and in my professional practice for more than two years with the most uniform and entire success, in cases of *severe Pulmonary disease*, and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted Yours respectfully,

FREDERIC T STORER, M D

Saco Me, May 22 1846

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman]

While we repudiate quackery we are always pleased to give credit to that which is truly useful, and to give information which may benefit others A few days ago a brother of ours, from Norway, Me, came into our office in comfortable health, whom we did not expect to see again on earth We received a letter a few weeks since, from another brother residing in the house with him saying that he was confined to his bed and could not probably continue but a short time Judge then of our surprise when we saw him enter our office He was short cough remaining, as it would be natural that he should have, until he had had further time for acquiring strength to bring him safely to his home The following is the statement which we addressed to the general Boston Agent for the medicine which has restored him so wonderfully will show what medicine has been the instrument of the good work

Boston Feb 16, 1847

Dr D F Bradlee—Sir—I cannot refrain from my mite a word to you in commendation of Buchan's Hungarian Balsam of life" Here is a plain statement of facts in relation to my case, and if they are of any service in inducing the sick to seek relief at the source from whence I obtained it I shall be thankful

My residence is Norway, Me Three years ago last fall I took a severe cold which left a cough of the most aggravated kind, accompanied by a severe pain in the left side Last June I had become so feeble that I was obliged to quit all work, and was confined to the house until about four weeks since During that time I received the best medical attendance, and tried nearly all the medicines which are recommended in such cases, but could find no relief, but grew worse, and for the last three weeks was confined to my bed Two of my physicians gave me up as past recovery But as fortune would have it, I heard of the Hungarian Balsam, and immediately procured a bottle This gave me instant relief, and six bottles have broken up my cough and placed me in a situation to assume, with advancing health, my usual occupation

BE WISE TO-DAY

Delay in any case of Consumptive tendency, is emphatically death, under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE If you have any symptoms above described, be advised in time

Patent Mill Wheels.

Tombey's Patent

Two Vent Cast Iron Water Wheels

—for—

SAW MILLS,

Invented by F R. Timbey of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other improved Wheels

SAW MILL WHEELS

use at the present time, and they can confidently recommend them with the same head and quantity of water applied a possessing and combining *more strength and Speed* and giving a more *uniform and steady Motion* in the out of the cut (and therefore not liable to break cranks) and will also run *longer and take more Lumber* under a less head than any other Wheel in use

Another advantage which this Wheel has over others is that it was constructed with but Two Vents for the discharge of water which makes the aperture larger and allows the "drift stuff" to escape without filling up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

Would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifuga Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills and are made of different sizes to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use we feel confident in recommending them as combining more advantages than any other wheel, for perpendicular Shafts now used

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by HIRAM A. BEARD, Esq Civil Engineer—Lowell Mass who is well known as one of the most Scientific and experienced practical Engineers in this country

"This wheel is formed with curved floats the number depending upon the size and vent of the wheel, each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water rises at its full head the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which is the ordinary mode of operation is wholly

This Wheel is adapted to low as well as high heads of water, and will run as well in back water as out of it, providing the head rises in a freshet as fast as the back water. But a Wheel with the jets partially gagged for a high head will not answer for more one and nine years, for as the head increases, the width of the jets should be proportionably contracted, so that the water may not issue to waste, and not goes to best effect to the Wheel.

In point of power, he trials show conclusively that this Wheel is superior to the best constructed Breast Wheels, and it has the advantages of working with good effect in situations where the Breast Wheel would be worthless as less liable to need repairs, easily accessible when they are needed, costs more less in the outlay, is much more durable, and takes very much less room in a mill or shop—Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel

Certificate from Col Pate editor of the Columbian Democrat Pa.

OFFICE OF THE COLUMBIA DEMOCRAT, Bloomsburg Columbia Co Pa, March 4 1848

Dr William Wright—Dear Sir—I am one of the many whose aversion to quack nostrums has deprived them of the benefits resulting from the use of good medicines Acting under this influence I have seldom resorted to the Pill box Last March when you commenced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested their merits for myself and family, gave them a decided preference over every other preparation

In every instance, when affected with sick headache, or when the stream of life was encumbered with morbid humors, I found speedy relief from the use of your Pills By taking from four to six on going to bed when indisposed, I have always been restored to health, without loss of time, and without the expense of a physician Wright's Indian Vegetable Pills possess the distinguished merit of operating effectually, without disturbing the rest of the patient, and in my case without producing even sickness at the stomach

Respectfully your friend, &c

WRIGHT'S INDIAN VEGETABLE PILLS—Although not particularly friendly to patent medicine we must confess that we have become a convert to these pills having had an opportunity on one or two occasions to test their efficacy For a gentle medicine, one or two will be found mild though effective Where *bile* or other impurities have accumulated and more thorough medicine is required a dose of three or four of these pills, taken on going to bed, will be found effectual in cleansing the stomach and restoring the bowels to a healthy state We speak from experience, and take pleasure in commending the pills to the public

AIR TIGHT

COOKING STOVE,

IMPROVED FOR 1848

Combination of the greatest improvements of the age—Four Sizes.

THIS Stove recommends itself to the attention of Ladies and Gentlemen who are interested in combining *Economy and Convenience* with their Domestic Affairs As all food passes the ordeal of some Cook ng Apparatus to make it palatable or proper for use, it is very important that every family should possess the Best Apparatus for this purpose and which at the same time shall consume the *least amount* of Fuel or incur the *least expense* The

PRIAM OF TROY IS THE STOVE

for it has a very LARGE OVEN probably as large as in any (equal size) Stove ever offered to the public which is heated quickly and perfectly even by means of **Deep Hollow Grooves**, in the back and bottom of the Oven, exposing from *three to four hundred* square inches more surface to the Oven than can be done by a plain surface Consequently, a very Small amount of fuel being arranged in this Air Tight Stove and applied to the Oven renders it one of the *BEST BAKING OVENS* to be found in New England

There is a Set of large Rims or Rings connected with the Stove so that our Farmers and all who wish to use large Brass or Iron Kettles, or any kind of old fashioned Ware, holding from one to ten pails can do it at their pleasure The whole Stove is regulated by means of only ONE DAMPER, is neat in its appearance, and in fact is one of the *best Companions for the Kitchen* now in use, as thousands who now have them will testify
